## Professional Experience

---

### Front-End Developer Intern

*Smashing Infolabs Pvt. Ltd., Indore, India*

Jan 2023 – May 2023

- Developed responsive web applications using HTML, CSS, Bootstrap, JavaScript, and jQuery, improving user experience and accessibility across multiple devices.
- Created web-based games, including renditions of Mario, Space Invaders, Pac-Man, and an original fighting game, demonstrating expertise in interactive game mechanics and UI/UX design.
- Enhanced user experiences by creating mobile-friendly web designs, following responsive web development principles.
- Optimized code performance and solved complex bugs, contributing to streamlined and reliable user interfaces.

## Projects

---

### Project Management Dashboard with Real-Time Chat

*React, WebSocket, Firebase, Context API/Redux*

Developed a task management dashboard with a Kanban board and integrated real-time chat for seamless team collaboration.

### Social Media Mini-App

*React, JWT, MongoDB, Flask/Django*

Designed and implemented a social media platform with features like user profiles, posts, CRUD operations, comments, and likes, secured by JWT-based authentication.

### Craft (Collaborative Platform for Note Taking)

*React, Excalidraw, WebSocket, Node.js, MongoDB*

Built a real-time collaboration platform enabling markdown note-taking and diagram creation with live interaction capabilities via WebSocket.

### Enhanced Booking and Reservation System

*React, Django/Flask, MongoDB*

Engineered a customizable booking system with calendar-based scheduling, availability tracking, and personalized reservation options.
